Art Unit: 1644

Amendment of 3/29/06 has been entered. Claims 28-29, 31-40 and 41-47 are pending. Claims 28-29, 31-32, 38-40 and 42-47 are under examination. The amendment has entered no new matter.

The amendment has overcome previously stated issues as follows:

The rejection of claims 38-40 and 42-43 under 35 USC 112, 2<sup>nd</sup> paragraph.

The rejection of claims 32 and 43 under 35 USC 101 and 112, 1st paragraph. Since the claimed complex is formed in an immunoassay, one of skill would have realized that the complex could be used as an assay standard.

The prior art rejections based upon Ginsberg et al and upon Dintzis et al.

The obviousness type double patenting rejection of claim 28, since applicant has filed an acceptable disclaimer.

The following rejections of record are maintained or modified as follows:

Claims 31 and 42 rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The claims contain new matter for reciting a generic buffer.

The rejection of record is maintained because there is no language in the original disclosure that has indicated that the taught 0.1 M sodium borate buffer of pH 9.0 is intended to be exemplary. Further, while one of skill might find it obvious to use a buffer other than this particular buffer, what one of skill might find obvious does not provide the proper basis for descriptive support.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 1644

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
